

To Whom it May Concern

Monday 17 November 2008

Chesterfield Borough Council have licensed Brett Graham – Traditional Rides, on a number of occasions, most recently at the Garden of Light in Queen's Park.

Brett has provided the Council with a high quality fun fair that was enjoyed by the public. He works closely with the Council Officers, offering advice on the best location for the site and ensuring that the fair does not cause any damage to the ground. This year he contacted me the day before the fair was due to move on site to advise me that the ground conditions were not suitable, due to the heavy rain. After consultation, an alternative site was found to the benefit of the Council, but to the detriment of the fun fair operator. I appreciated his honest and professional advise on the matter.

Before moving on site, Brett provides the Council, with all the necessary health and safety documentation and operates in a safe manner. The Council's Safety Advisor and representatives from the Emergency Services attend a site inspection before the fair is opened to the public and Brett ensures that everything complies with current health and safety legislation. He has a good track record in delivering a safe, professional fun fair.

I would have no hesitation in using Brett Graham's fun fair at future Council events.
